Gibault

Gibault was founded in 1921 by the Indiana Knights of Columbus to provide

troubled children and families the opportunity to grow emotionally, educationally, spiritually, physically and socially. The children's growth occurs within a highly structured environment where the youth can test new behaviors while working on individualized treatment plans. Treatment plans are designed to teach students to improve their life skills so that they can maximize their potential to accept responsibility for their actions and to gain control over their behaviors.

Northside Endodontics

Your family dentist has recommended endodontic therapy, "root canal," for your tooth. We work hard to provide the best root canal experience possible. We recognize the value of communication between doctors and have therefore made a commitment to work with your family dentist to enable the most comprehensive treatment. When your root canal treatment is complete, you will need to return to your dentist to receive a permanent restoration. Your family dentist is best qualified to determine the appropriate restoration to protect your tooth.
